Mathematics Skills Profile Grade 6
Rational Computation and Algebra Basic Skills

School: _____ Grade: _____ Teacher(s): _____ Date: _____

Tier	Assessed Skills → ↓ Student Names ↓	Accurate but slow	Makes careless errors (i.e., fails to reduce fractions)	Struggles with whole-number computation	Add and subtract fractions	Multiply and divide with fractions	Compute with decimals	Convert between fractions and decimals	Find percent of a number	Solve basic fact equations	Apply the distributive property	Work with integers	Combine like terms	Apply proportional reasoning (i.e., solve proportions and convert measurements

○ = student has <u>not</u> demonstrated understanding of this concept/skill

◒ = student has demonstrated <u>some</u> understanding of this concept/skill

● = student has demonstrated adequate understanding of this concept/skill

X = student struggles with this issue (i.e., accurate but slow; careless errors; whole-number computation)
