Dear Families,

_____ has made a score on his/her language proficiency test which is high enough to exit him/her from our English Language Learner program! Your child has also passed the State Assessment for English Language Arts and Math. We congratulate you for helping them achieve this goal!

Our English as a Second Language (ESL) committee met to discuss the exit process of your child. Please understand that your child will be monitored for two years after exiting the program. If, at any time your child shows difficulty in class due to problems with language, we will notify you and the English as a Second Language (ESL) committee will meet again to discuss what is best for your child, which may or may not include re-entry into the ESL program.

If you have any questions or concerns, please contact our English as a Second Language Program.
