# PIZZA PALACE Q AND A By: Kayrin Amador

Q: Why did you want to start your business.

A: I worked for other people and wanted to start something different. I knew that if I put all my hard work in someone else's business, I could do something better and different for myself.

Q: Who helped you start your business?

A: My Family

Q: How did you start it?

A: I had worked in other businesses but always worked for someone else. I felt that I could do something better.

Q: Where are you originally from?

A: India

Q: What is your favorite thing about your business?

A: I like to see my customers satisfied and like to know what they like to eat and to see their satisfied faces when they eat the food that I cook.

Q: Who else works here besides you?

A: 4 more people.

Q: When did you start your business?

A: July 2007.

# Spring Fling!!

By: Deezyah Carlton and Noelle  
Richburg

Pike County Elementary School holds an event each year called Spring Fling. This is a fundraiser for our school which helps provide a variety of benefits. Some of the benefits include summer school treats as well as doing other activities throughout the year. The wristband price of 10 dollars may seem like a lot, but the monies go to these important causes, and in the process your child will have a lot of fun.

The schedule for upper grades was as follows: First, we watch a movie in our classrooms. Next, we pick up lunch in the cafeteria and return to the classroom to eat. Finally, we spend the rest of the day at the upper part of campus doing a variety of activities, both inside and out. Inside the gym are activities including Just Dance, Face Paint, Soda Toss, Go Fish, and Pick Up Duck. The main building also hosts Bingo and the Cupcake Walk. Just outside, we enjoy the Bounce House, Basketball, Football Toss and Train Ride.

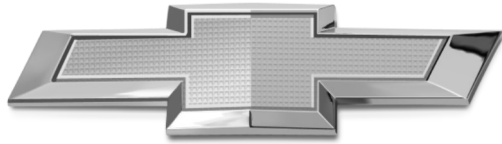

An extra opportunity to help the school in the fundraising effort is nearby in the library. This is the location for concessions and is a favorite spot for students! Goodies include pickles, pizza, nachos, snow cones, ice cream, ring pops, juice, water, etc.

Thank you for giving the 10 dollars and allowing your child to participate...YOU really helped a lot!!

## Black History Month

In the United States, February is observed as Black History Month. We use this month to remember the important contributions and achievements of African Americans throughout our nation's history.

The precursor to Black History Month was created in 1926 in the United States when historian Carter G. Woodson and the Association for the Study of Negro Life and History announced the second week of February to be "Negro History Week."

This week was chosen because it coincided with the birthday of Abraham Lincoln on February 12 and of Frederick Douglass on February 14, both of

which dates black communities had celebrated together since the late 19<sup>th</sup> century.

Negro History Week was the center of the equation. Since 1976 every U.S. president has officially designated the month of February as Black History Month.

## Building a LEGACY

**By: Daniel Collins & A'Zhoree Eutsey**

On December 5, 2018, second and third graders from Pike County Elementary School visited Troy University for the closing celebration of the Liberty's Legacy program. Through this program, we have learned what it means to be a super citizen, to remember those who serve our country in the military, to be kind to others even when they aren't kind in return, and to grow to be a generation of the "next great Americans."

The 2018-19 third grade classes of Pike County Elementary School are proud super citizens since we graduated from this respected program. During our time in the legacy program, we talked about how our local heroes help and serve our communities.

This final send-off gave all participating classes the opportunity to award several people. Mr. Jonathan Isaac was presented with the "Helping Hands" award by his son, 2nd grader, Mason Isaac. Mr. Coston Collier, PCES PTO president, was selected as third grade's Torch Team Hero for all he does for the school, and his introduction was read by Karmen Davis. Although this program has ended for our second and third-grade classes for another year, we will take the memories and lessons learned with us for a lifetime. Thank you Troy Bank and Trust for sponsoring such an awesome program!

# 100th Day of School

By: **Samya Provitt**

**Hooray!** It is the “One Hundredth Day of School”. Several grade levels celebrated this day with decorated posters. The posters displayed 100 things of the students’ choice. First grade made hats and posters. These activities support our 100<sup>TH</sup> DAY of School.

# Women's History Month

From raising families to leading army women such as Catherine the Great, Eleanor of Aquitaine, Queen Elizabeth the 1<sup>st</sup>, Susan B. Anthony, Marie Curie and countless others have played a vital role in human civilization.

## Ruth Bader Ginsburg

Ruth Bader Ginsburg became the second female justice of the U.S. Supreme Court. Born in 1933 in Brooklyn, New York. Bader taught at Columbia University, where she became its first female tenured professor. She served as the director of the Women's Right Project in Columbia

## Susan B. Anthony

Born on Feb. 15, 1820, in Adams, Massachusetts. Susan was a pioneer crusader for the Woman Suffrage Movement in the United States and, president (1892-1900) of the National American Woman Suffrage Association. Her work helped pave the way for the Nineteenth Amendment (1920) to the Constitution, giving women the right to vote.

## Rosa Parks

Born Feb. 4, 1913 in Tuskegee, Alabama. Rosa Parks was recognized for refusing to give up her seat to a white man on a Montgomery, Alabama city bus in 1955, black seamstress Rosa Parks (1913-2005) helped initiate the civil rights movement in the United States. Even though the boycott lasted for over a year over the next century, Rosa Parks became nationally recognized as a symbol of dignity and strength in the struggle to end entrenched racial segregation.

# The Principal's Corner: A word from Ms. Arnold

As the principal of Pike County Elementary school, I could not be more proud of our faculty and staff and everything they have done up to this point. It's hard to believe that half of the school year has already passed and we are getting ready for the break!

Our school has partnered with Troy University Department of Education to allow their STEM students to come and teach lessons throughout the semester. STEM is an acronym for science, technology, engineering, and math. This is the future and we are eagerly preparing our students for the next step in their quest to be successful in life. We were honored to have John Weis from NASA come to assist with the STEM projects and look forward to his next visit in February.

We are working hard at implementing STEM across grade levels. Dr. Bazzell has extended it to lower grade levels. Don't forget we already have a STEM academy for grades 5 through 8. Our students are learning and solving real world problems.

We were so excited to partner with Alabama Public Television to bring a STEM workshop to the community and our own grades Pre-K through Second. At this workshop valuable resources were shared and it was awesome watching the teachers be the students.

We continue using technology such as mimio boards, SMART boards, clickers, and computers. All of this technology and more is used to ensure that our students are engaged and learning new skills. We are proud of our new lab on our campus. Our students partici-

pated in the Hour of Code along with more than a million people across the world to learn how to program computers and that's not a one-time thing we will do it again in the spring. Our students thoroughly enjoyed this assignment.

Our students are working tirelessly to be prepared for our state assessment. Although the assessment has changed from the Aspire to Scantron, we are continuing to teach the standards to our students. Both assessments will be taken in the spring. We are currently practicing with Interim assessments so they will be comfortable when they take the "real" thing. Our Kindergarten through second grades are assessed using DIBELS. Some computer programs that our students apply their skills learned are Stride Academy, No Red Ink, ACT Typing club and the list goes on. We want our students to be ready for the next step in life, High School!

We are constantly working on ways to stay in contact with our parents. We want each of you to know what is going on at PCES. The following ways are used to make contact: Remind, Notify Me, School Messenger, phone calls, text messages, website, letters, and emails. Parents, please let us know if you changed numbers, so that we can always get the most up to date information to you.

We will continue our academic assemblies each nine weeks. We want to celebrate our students and all of their achievements. We have also started having free admission to

dances if you have no discipline referrals. In order for them to receive our best and do their best, each one of them need to be at school on time and stay all day. Please make your appointments after school hours.

Parents, thank you for your willingness to work with us because it is true, "There's no I in team."

We would love for you to come and observe our classes, but don't interrupt because we are learning!

Sincerely,

Tracey Arnold, Principal

## American Heart Month –

### Promoting Women’s Heart Health!

#### Women’s Heart Health 101 By: Kynthis Jackson

- Know your risk factors: High blood pressure, smoking, high cholesterol, obesity, and lack of regular activity are all things that we can control.
- Know your numbers! One of the best things you can do to protect your heart is to know your blood pressure, cholesterol, BMI, and blood sugar.
- Take action now! Healthy changes in your life can make the worlds of difference for your heart.
- If you are experiencing symptoms of heart attack, don’t hesitate to get help! The stakes are too high.
- Almost two-thirds (64%) of women who die suddenly of coronary heart disease have no previous symptoms.<sup>4</sup> Even if you have no symptoms, you may still be at risk for heart disease
- Women are more likely to describe chest pain as being sharp and burning in nature and more frequently have pain in the neck, jaw, throat, abdomen, or back
- Heart disease is a killer that strikes more women than men, and is more deadly than all forms of cancer combined. While one in 31 American women dies from breast cancer each year, heart disease claims the lives of one in

three. That’s roughly one death each minute. The American Heart Association recommends you start getting your cholesterol checked at age 20, or earlier, if your family has a history of heart disease. And while you’re at it, be sure to keep an eye on your blood pressure at your next check-up.

- For younger women, smoking boosts heart disease risks by 20 percent.
- Women wait longer than men to go to an emergency room when having a heart attack and physicians are slower to recognize the presence of heart attacks in women because “characteristic” patterns of chest pain and EKG changes are less frequently present

# In Charge Soon!!

By: Kylan Wilkerson

Sixth graders will be leaving soon and going to high school, which means the 6<sup>th</sup> grade newspaper team will be passing the torch to the 5<sup>th</sup> grade newspaper team members! The positions that were assigned to the 5th grade newspaper team are Editor-in- Chief, Co. Editor, Head Photographer, Co. photographers, and writers. The sixth grade team members after training assigned positions for next year's newspaper team.

The members had to earn their positions by enduring a rigorous training for a couple of weeks. They were required to train at each station, which consisted of using the camera, computer, and writing. Once training was complete, each person had to display proficiency in a desired position.

Listed below are the future leading staff:

Editor and Chief: Star Bryant

Co. Editor and Chief: Jose Ramirez

Chief Photographer: Jakiyah Hyman

Co. Photographer: Arianna Straw

Writer: Essence Martin

Writer: Alex Guevara Zavaeta

# *A Man of Peace*

By: Kayrin Amador

Martin Luther King Jr. is and was known for his peace, civil rights, and peaceful movement. Martin Luther King Jr. was born on January 15, 1929. His father King Sr. was inspired by Protestant leader, Martin Luther. He then decided to change both his and his son's name to Martin Luther King when Martin was 5 years old. Before that his name was Michael.

Martin was a well-known civil rights leader and activist who had a great deal of influence on American Society in the 1950s and 1960s. His strong belief in nonviolent protest helped set the tone of the movement. He was inspired by Mahatma Gandhi because of his peaceful and nonviolent teaching. He won the Nobel Prize for his dynamic leadership of Civil Rights movement and steadfast commitment to achieving racial justice through nonviolent action.

Martin Luther King Jr. was the most important voice of the American Civil Rights Movement which worked for equal rights for all. King was also a Baptist minister. At 6:05 PM on Thursday 4 April 1968 Martin Luther King was shot dead while standing in the balcony outside his second floor room at Lorraine Motel in Memphis Tennessee.
