The Importance of Sleep

Long weekends can be difficult because if there is no school on Monday, students will stay up later than usual on Sunday. Additionally students will not go to sleep at a good time on Monday nights, which makes for a long Tuesday! I have included a list of the recommended number of hours that children should be sleeping:

- 3-5 year old children | 10 to 13 hours
- 6-13 year old children | 9 to 11 hours
- 14-17 year old children | 8 to 10 hours

It may also be a good idea to reduce the use of electronics at night to help children reduce stimulus. Doing this may help students relax and be able to fall asleep faster at night.

Threats

We are continuing to experience issues with students making threats to one another.

Just a reminder that these statements are taken seriously and NCS D requires us to act upon them.

****Attendance****

Students are at risk of being marked truant when a call or written note from a parent/legal guardian is not presented to the school **within three (3) days of an absence**. The definition of an absence includes: a partial or full day absent from school. These types of absences can all be marked truant if contact from the parent/legal guardian is not made within the allowed time limit. If you are taking your child out of school for a trip, you need to fill out the pre-arranged absence forms and return them to the office **at least 2 days before** the trip or the absences are unexcused. These forms may be picked up in the office or printed off from our school website.

Principal's Corner

Dear Parents/Guardians,

We are in the last full week of February! I hope that you enjoyed your long weekend and that you had some time to relax.

Our school-wide testing for 3-8th grade will be starting in a few weeks so try to get in the habit of getting plenty of rest and eating breakfast each day.

Enjoy the rest of your week,

Mr. Moore
