Register At www.register.gotocollegefairs.com/registration/registration

MS & HS – Pulling for Students Award

Students, it's that time of year again where you get to reflect upon how your teachers have helped you to be successful. We want you to really think about that one teacher or staff member who has always "pulled for you". What teacher or staff member has always gone over and beyond for you? Maybe that person spent endless hours tutoring you before or after school. Maybe that person always made sure you understood and did it in a discrete way that didn't allow anyone else to even know you were struggling. Perhaps this person was just always there for you in one way or another. If you have someone who has done this for you this school year we want you to write an essay about the teacher/staff member who has ***Pulled for You!*** There will be a winner from both the MS & HS levels. Please submit an essay of no more than 1000 words, typed, and signed by you to Mr. Boles by **Monday, April 23**. Unfortunately, the following personnel are ineligible for this year's nomination because they are past winners over the past three school years. Next year, the 2015 winners will be eligible once again.

Past Winners:

2015

MS – Pam Watson
HS – Jennifer White

2016

MS – Miriam Arnold
HS – Carmen Veller

2017

MS – Johnnie Richardson
HS – Kawana Potier
