Charter Expands Free 60-Day Spectrum Broadband Internet and WiFi Offer to Include Educators Who Are New Spectrum Subscribers

STAMFORD, Conn. – Today, Charter announced it is expanding the eligibility for its 60-day free offer for Spectrum broadband Internet and WiFi access to include educators (K-12 teachers and college/university professors) who do not already have a Spectrum account. During this unprecedented time, with the COVID-19 pandemic having forced schools, colleges and universities to close, it is more important than ever for students and educators to stay connected while they teach and learn.

Educators, who live in a Spectrum market and do not currently have broadband, should contact Spectrum at **1 (844) 488-8395** to sign up. A free self-installation kit will be provided to new student and educator households.

Now, more than ever, Americans rely on high speed broadband in nearly every aspect of their lives and Charter is committed to ensuring our more than 29 million customers maintain reliable access to the online resources and information they want and need. To ease the strain in this challenging time, on March 16 Charter committed to the following for 60 days:

- Charter is offering **free Spectrum Internet and WiFi access for 60 days** to households with K-12 and/or college students, and now educators, who do not already have a Spectrum Internet subscription.
- Charter continues to offer Spectrum Internet Assist, a high speed broadband program available to eligible low-income households that delivers speeds of 30 Mbps.
- Charter has opened its WiFi hotspots across our footprint for public use.
- Spectrum does not have data caps or hidden fees.
- Spectrum will not terminate service for residential or small business customers who face difficult economic circumstances related to the COVID-19 pandemic.
- Similarly, Charter will not charge late fees for those customers facing difficult economic circumstances related to the pandemic.
- Spectrum News has opened its websites to ensure people have access to news and information.
- Charter has also donated airtime to run 1,000 COVID-19 public service announcement (PSA) spots per week, including on all Spectrum News Networks, for four weeks to our full footprint of 16 million video subscribers and on our digital video and streaming apps. Additionally, Charter will run PSAs for the American Red Cross and other relief organizations.

As the country works collaboratively to contain this pandemic, broadband Internet access will be increasingly essential to ensure that people across the country are able to learn and work remotely, that businesses can continue to serve customers, and Americans stay connected and engaged with family and friends.

Charter's advanced communications network will ensure our customers – including government offices, first responders, health care facilities, businesses and the news media – across 41 states maintain the connectivity they rely on to help flatten the curve and protect the country.

Charter amplía gratis la oferta de Internet y WiFi de banda ancha de espectro de 60 días para incluir a los educadores que son nuevos suscriptores del espectro

STAMFORD, Conn. – Hoy, Charter anunció que está ampliando la elegibilidad para su oferta gratuita de 60 días para Internet de banda ancha Spectrum y acceso WiFi para incluir educadores (maestros K-12 y profesores universitarios/ universitarios) que aún no tienen una cuenta spectrum. Durante este tiempo sin precedentes, con la pandemia COVID-19 que ha obligado a cerrar escuelas, colegios y universidades, es más importante que nunca que los estudiantes y educadores se mantengan conectados mientras enseñan y aprenden.

Los educadores, que viven en un mercado del espectro y actualmente no tienen banda ancha, deben comunicarse con Spectrum al 1 (844) 488-8395 para inscribirse. Se proporcionará un kit de autoinstalación gratuito a los nuevos hogares de estudiantes y educadores.

Ahora, más que nunca, los estadounidenses confían en la banda ancha de alta velocidad en casi todos los aspectos de sus vidas y Charter se compromete a garantizar que nuestros más de 29 millones de clientes mantengan un acceso confiable a los recursos e información en línea que desean y necesitan. Para aliviar la tensión en este tiempo difícil, el 16 de marzo Carta comprometido con lo siguiente durante 60 días:

- Charter ofrece acceso gratuito a Internet Spectrum y WiFi durante 60 días a los hogares con Estudiantes de K-12 y/o universitarios, y ahora a los educadores, que aún no tienen una suscripción a Internet spectrum.
- Charter continúa ofreciendo Spectrum Internet Assist, un programa de banda ancha de alta velocidad disponible para los hogares de bajos ingresos elegibles que ofrece velocidades de 30 Mbps.
- Charter ha abierto sus puntos de acceso WiFi a través de nuestra huella para uso público.
- Spectrum no tiene límites de datos ni cargos ocultos.
- Spectrum no terminará el servicio para clientes residenciales o de pequeñas empresas que se enfrentan a circunstancias económicas difíciles relacionadas con la pandemia COVID-19.
- Del mismo modo, Charter no cobrará tasas por mora para aquellos clientes que se enfrentan a circunstancias económicas difíciles relacionadas con la pandemia.
- Spectrum News ha abierto sus sitios web para garantizar que las personas tengan acceso a noticias e información.
- Charter también ha donado tiempo de emisión para ejecutar 1.000 spots de anuncio de servicio público (PSA) COVID-19 por semana, incluso en todas las redes de noticias de Spectrum, durante cuatro semanas a nuestra huella completa de 16 millones de suscriptores de vídeo y en nuestras aplicaciones de vídeo digital y streaming. Además, Charter ejecutará PSA para la Cruz Roja Americana y otras organizaciones de socorro.
- A medida que el país trabaja en colaboración para contener esta pandemia, el acceso a Internet de banda ancha será cada vez más esencial para garantizar que las personas de todo el país puedan aprender y trabajar de forma remota, que las empresas puedan seguir sirviendo a los clientes, y los estadounidenses permanezcan conectados y comprometidos con familiares y amigos.

La red avanzada de comunicaciones de Charter garantizará que nuestros clientes, incluidas las oficinas gubernamentales, los socorristas, los centros de atención médica, las empresas y los medios de comunicación, en 41 estados mantengan la conectividad en la que confían para ayudar a aplanar la curva y proteger el país.

AT&T Offers Savings to Schools to Support eLearning for their Students

Available for all qualified public and private K-12 schools, colleges and universities

New customers in education can connect and collaborate with AT&T Office@Hand--Premium at no cost

With the COVID-19 virus having unprecedented impacts on our society and keeping millions of students and teachers home for the foreseeable future, AT&T* is stepping up to enable virtual classrooms across America. AT&T is offering schools a way to save on unlimited wireless broadband connectivity for students. Through May 22nd, qualified schools activating new lines on qualified data-only plans for school-issued tablets, 4G LTE-enabled laptops and hotspot devices will get the wireless data service at no cost for 60 days.

And schools know they need to protect their students while online – which is why AT&T is also making AccessMyLAN™ for the qualified lines available at **no cost for 60 days**.¹ This service allows school administrators to manage the internet sites their students can access to help protect them from unsafe content and also to block malicious sites, malware and hacking attempts.

“We know that schools and universities across America are grappling with the impact of COVID-19, and that moving the classroom into the home requires access to the internet for all students,” said Mo Katibeh, EVP-chief marketing officer, AT&T Business. “This is an important step to help schools address the challenge. AT&T is committed to finding innovative ways to support education institutions during this public health crisis.”

To keep administrators, teachers, parents, and students connected, [we’re also offering AT&T Office@Hand Premium powered by RingCentral at no cost for eligible new customers in K-12 education](#), as well as healthcare and non-profit social services for up to 60 days with agreement. This enables schools to quickly activate video meetings and always-on chat groups where teachers and students can share files and collaborate on assignments. Schools can setup hotline, phone, fax and SMS capabilities through Office@Hand mobile and computer apps.

Supporting eLearning Tools

Beyond helping schools meet the connectivity challenge, AT&T is directly supporting the development and deployment of eLearning resources. This includes launching a \$10 million [Distance Learning and Family Connections Fund](#) to give parents, students and teachers tools they need for at-home learning. The fund launched with a \$1M contribution to

Khan Academy – to help them improve and expand online learning resources to meet the growing demand from parents, teachers and students.

Additionally, to help keep families connected during this uncertain time, AT&T is funding 60 days of free access and unlimited usage of [Caribu](#), a video-calling application that allows family members to read, draw, and play games with one another while in distant locations.

Keeping Communities Connected

To further support Internet access to communities across the country, we’ve expanded our low-cost option for home Internet service, the [Access from AT&T](#) program. In addition to those previously qualifying as limited income households for \$10 per month service, now households participating in the National School Lunch Program and Head Start are eligible. We’re also offering new Access from AT&T customers two months of free service.

Ayudar a nuestras comunidades en tiempos de necesidad

March 24, 2020

AT&T ofrece ahorros a las escuelas para apoyar el eLearning para sus estudiantes

Disponible para todas las escuelas, colegios y universidades públicas y privadas de K-12 calificadas

Los nuevos clientes en educación pueden conectarse y colaborar con AT&T Office@Hand--Premium sin costo

Con el virus COVID-19 teniendo un impacto sin precedentes en nuestra sociedad y manteniendo a millones de estudiantes y maestros en casa para el futuro previsible, AT&T* está dando un paso adelante para habilitar las aulas virtuales en todo Estados Unidos. AT&T ofrece a las escuelas una manera de ahorrar en conectividad de banda ancha inalámbrica ilimitada para los estudiantes. Hasta el 22 de mayo, las escuelas calificadas que activan nuevas líneas en planes calificados solo de datos para tabletas emitidas por la escuela, portátiles compatibles con 4G LTE y dispositivos hotspot obtendrán el servicio de datos inalámbricos sin costo durante 60 días.

Y las escuelas saben que necesitan proteger a sus estudiantes mientras están en línea, por lo que AT&T también está haciendo AccessMyLANTM para las líneas calificadas disponibles sin costo durante 60 días. Este servicio permite a los administradores de la escuela administrar los sitios de Internet que sus estudiantes pueden acceso para ayudar a protegerlos de contenido inseguro y también para bloquear sitios maliciosos, malware e intentos de piratería.

"Sabemos que las escuelas y universidades de todo Estados Unidos están lidiando con el impacto de COVID-19, y que trasladar el aula al hogar requiere acceso a Internet para todos los estudiantes", dijo Mo Katibeh, director de marketing de EVP, AT&T Business. "Este es un paso importante para ayudar a las escuelas a abordar el desafío. AT&T se compromete a encontrar formas innovadoras de apoyar a las instituciones educativas durante esta crisis de salud pública".

Para mantener a los administradores, maestros, padres y estudiantes conectados, también ofrecemos AT&T Office@Hand Premium impulsado por RingCentral sin costo alguno para nuevos clientes elegibles en educación K-12, así como servicios sociales de atención médica y sin fines de lucro por hasta 60 días con acuerdo. Esto permite a las escuelas activar rápidamente las videoconferencias y los grupos de chat siempre activos donde los profesores y los estudiantes pueden compartir archivos y colaborar en tareas. Las escuelas pueden configurar las capacidades de línea directa, teléfono, fax y SMS a través de Office@Hand aplicaciones móviles y de computadora.

Apoyo a las herramientas de aprendizaje electrónico

Además de ayudar a las escuelas a enfrentar el desafío de la conectividad, AT&T está apoyando directamente el desarrollo y la implementación de recursos de eLearning. Esto incluye el lanzamiento de un Fondo de Aprendizaje a Distancia y Conexiones Familiares de \$10 millones para dar a los padres, estudiantes y maestros las herramientas que necesitan para el aprendizaje en el hogar. El fondo lanzó con una contribución de \$1 M.

Khan Academy – para ayudarles a mejorar y ampliar los recursos de aprendizaje en línea para satisfacer la creciente demanda de padres, maestros y estudiantes.

Además, para ayudar a mantener a las familias conectadas durante este tiempo incierto, AT&T está financiando 60 días de acceso gratuito y uso ilimitado de Caribu, una aplicación de videollamadas que permite a los miembros de la familia leer, dibujar y jugar juegos entre sí mientras están distantes mientras están en distantes Localizaciones.

Mantener las comunidades conectadas

Para apoyar aún más el acceso a Internet a las comunidades de todo el país, hemos ampliado nuestra opción de bajo costo para el servicio de Internet en el hogar, el programa Access from AT&T. Además de aquellos que anteriormente calificaban como hogares de ingresos limitados por un servicio de \$10 por mes, ahora los hogares que participan en el Programa Nacional de Almuerzo Escolar y Head Start son elegibles. También ofrecemos un nuevo acceso de los clientes de AT&T dos meses de servicio gratuito.

Consolidated Communications Commits to Keep Americans Connected

Consolidated Communications joins other major carriers throughout the nation and pledges to Keep Americans Connected during this pandemic event.

Consolidated Communications will:

- ensure that all residential or small business customers maintain continuity of voice and data connectivity regardless of their ability to pay their bills due to disruptions caused by the coronavirus pandemic;
- waive any late fees that any residential or small business customers incur because of their economic circumstances related to the coronavirus pandemic; and
- open its Wi-Fi hotspots to anyone who needs them.

In addition, Consolidated Communications **does not** have data caps on broadband Internet services, which means customers working from home or learning remotely don't have to be concerned about usage caps affecting their ability to perform their jobs or participate in online classes.

This pledge applies to residential and small business customers. If you have been directly impacted by COVID-19 and need the concessions outlined above, please contact us at [844.YOUR.CCI](tel:844.YOUR.CCI).

Comunicaciones consolidadas se compromete a Mantenga a los estadounidenses conectados

Consolidated Communications se une a otros operadores importantes en todo el país y se compromete a mantener a los estadounidenses conectados durante este evento pandémico.

Las comunicaciones consolidadas:

- asegurar que todos los clientes residenciales o de pequeñas empresas mantengan la continuidad de la conectividad de voz y datos, independientemente de su capacidad de pagar sus facturas debido a interrupciones causadas por la pandemia de coronavirus;
- renunciar a cualquier cargo por atraso en el que incurran los clientes residenciales o de pequeñas empresas debido a sus circunstancias económicas relacionadas con la pandemia de coronavirus; y
- abra sus puntos de acceso Wi-Fi a cualquiera que los necesite.

Además, Consolidated Communications no tiene límites de datos en los servicios de Internet de banda ancha, lo que significa que los clientes que trabajan desde casa o que aprenden de forma remota no tienen que preocuparse por los límites de uso que afectan su capacidad para realizar su trabajo o participar en clases en línea.

Esta promesa se aplica a clientes residenciales y de pequeñas empresas. Si ha sido afectado directamente por COVID-19 y necesita las concesiones descritas anteriormente, contáctenos al **844.YOUR.CCI**.

We are committed to keeping you connected.

TDS is committed to offering reliable, resilient communications service to our customers, in good times and in times of crisis. We anticipate the COVID-19 viral outbreak will increase Internet usage demands as more customers find themselves working, learning and otherwise staying at home. We'd like to share our operations support and business continuity strategy with you, so you can rest assured your service is supported.

Our Pandemic Tactical Team is actively monitoring the situation in a coordinated manner with federal, state, and local health and safety officials. We are implementing the following strategies and protocols to protect our customers and employees, while also keeping our network performing for you.

Specifically:

1. Our network infrastructure is built and maintained to anticipate future demand, not simply to keep up with what today might bring.
2. Our Business Continuity Plan further addresses crisis events. The cornerstone is a robust, redundant network with backup systems strategically placed to safeguard against unexpected disruptions in the network. We are taking steps to monitor available bandwidth and will increase staffing to address isolated incidents, if they arise.
3. Our Operations team leverages real-time technology with human expertise to match customer bandwidth demand with system performance.
4. Our geographically diverse workforce is able to transfer traffic, inquiries and workload to alternate locations if needed. Our workforce is also equipped to work from home as much as necessary to adapt to evolving CDC recommendations.
5. All non-essential travel and in-person meetings are being suspended in lieu of virtual meetings.
6. Any staff that interacts directly with customers has received additional hygiene training and sanitation toolkits, to ensure both the employee and the customer is fully protected.
7. Before scheduling business or in-home visits, customers will be asked if anyone in the home or business is exhibiting symptoms. To maximize everyone's safety and to prevent further spread of illness, our staff may ask for your cooperation in rescheduling service appointments if the status has changed by the time of the appointment.
8. We would like to proactively ask for your patience when it comes to scheduling on-premise technician visits. We may experience some unavoidable periods of peak demand if we have staff following CDC recommendations for self-isolation.
9. Finally the hardest hit by the economic challenges attributed to the outbreak. Customers directly impacted by the coronavirus pandemic will remain connected and late fees will be suspended for at least the next 60 days.
10. New customers with students or financial need will be eligible for **60 days of free internet access**, to help assist with work- or school-at-home scenarios.

If you have any service-related questions or concerns, please reach out to us at 1-866-278-2472. We sincerely wish the best for you and yours through this challenging time

Mediacom Announces Company Initiatives to Combat Spread of Coronavirus

Mediacom Park, NY - March 16, 2020 - Mediacom Communications announced today a series of company initiatives directed at helping American families address work, education and health care challenges created by the Coronavirus pandemic.

Specific initiatives include:

- Increasing the speed of the [Mediacom Connect2Compete](#) low-cost internet program to 25 megabits per second (Mbps) down by 3 Mbps up (currently 10 Mbps down by 1 Mbps up). Qualifying families who subscribe **before May 15, 2020**, will receive **60 days** of complimentary Mediacom Connect2Compete service.
- Extending the pricing of Mediacom's Access Internet 60 broadband service to new customers at \$19.99 per month for the next 12 months (currently retails for \$29.99 per month).
- Pausing monthly data allowances across all Mediacom broadband service tiers through May 15, 2020;
- Providing complimentary access to all [Mediacom Xtream Wi-Fi Hotspots](#) for 60 days.

"Mediacom recognizes our broadband network will continue to be a powerful tool used to combat the spread of the Coronavirus in the more than 1,500 communities we serve," said John Pascarelli, Mediacom's EVP of Operations. "By helping as many people as possible get online, we hope to create opportunities for patients to safely connect with their doctors through telemedicine applications, for students to continue their studies online, and for employees to work from home."

In addition to these changes, Mediacom joined dozens of other internet service providers in signing onto the 60 day [Keep Americans Connected Pledge](#) issued by Federal Communications Chairman Ajit Pai on March 13, 2020. As part of this pledge, Mediacom will not disconnect service or assess late fees to any customer that calls and informs the company that they cannot pay its bills during this period.

COMCAST ANNOUNCES COMPREHENSIVE COVID-19 RESPONSE TO HELP KEEP AMERICANS CONNECTED TO THE INTERNET

Company Opens Xfinity WiFi Network Nationally for Free, Offers Unlimited Data for Free, Confirms Its Commitment to Connecting Low-Income Families

PHILADELPHIA – March 13, 2020 – On the heels of offering new, low-income Internet Essentials customers two months of free internet and raising the speed of that program's service to 25/3 Mbps, Comcast today announced additional steps to help ensure people stay connected to the internet as more schools suspend classes and companies encourage employees to work from home due to the Coronavirus.

"During this extraordinary time, it is vital that as many Americans as possible stay connected to the internet – for education, work, and personal health reasons," said Dave Watson, Comcast Cable Chief Executive Officer. "Our employees also live and work in virtually every community we serve, and we all share the same belief that it's our Company's responsibility to step up and help out."

Comcast is taking steps to implement the following new policies for the next 60 days, and other important initiatives:

- **Xfinity WiFi Free For Everyone:** Xfinity WiFi hotspots across the country will be available to anyone who needs them for free – including non-Xfinity Internet subscribers. For a map of Xfinity WiFi hotspots, visit www.xfinity.com/wifi. Once at a hotspot, consumers should select the "xfinitywifi" network name in the list of available hotspots, and then launch a browser.
- **Pausing Our Data Plan:** With so many people working and educating from home, we want our customers to access the internet without thinking about data plans. While the vast majority of our customers do not come close to using 1TB of data in a month, we are pausing our data plans for 60 days giving all customers Unlimited data for no additional charge.
- **No Disconnects or Late Fees:** We will not disconnect a customer's internet service or assess late fees if they contact us and let us know that they can't pay their bills during this period. Our care teams will be available to offer flexible payment options and can help find other solutions.
- **Internet Essentials Free to New Customers:** As announced yesterday, it's even easier for low-income families who live in a Comcast service area to sign-up for Internet Essentials, the nation's largest and most comprehensive broadband adoption program. New customers will receive 60 days of complimentary Internet Essentials service, which is normally available to all qualified low-income households for \$9.95/month. Additionally, for all new and existing Internet Essentials customers, the speed of the program's Internet service was increased to 25 Mbps downstream and 3 Mbps upstream. That increase will go into effect for no additional fee and it will become the new base speed for the program going forward.
- **News, Information and Educational Content on X1 and Flex:** For those with school-age students at home, we've created new educational collections for all grade levels in partnership with Common Sense Media. Just say "education" into your X1 or Flex voice remote. To help keep customers informed, we also have created a collection of the most current news and information on Coronavirus. Just say "Coronavirus" into your X1 or Flex voice remote.
