Villa Rica Elementary Weekly News & Updates

Mr. Springer's Corner

Parents,

We often only think of academics in determining a student's success but we must also focus on the relationship between students, parents, and school staff. This is known as the school climate. A positive school climate has been associated with better student academic achievement, graduation, and behavioral outcomes. At VRE, we work to make all students feel special and understand that they are an integral part of TEAM VRE! I ask that during homework time this week you ask your children what makes them feel special at VRE and encourage them to share ideas with their teachers to make them feel successful! Also, a huge shout out to our students, parents, and staff for the awesome work on achieving a state CCRPI Score of 94.2. This score places us in the top 5% of all schools in the state of Georgia. WE ARE VR!!!

next week
