

Dear bus parents...

To help with communication if a bus were to be late, doing a double run, etc, we have set up Remind message lines for each bus. If you would like to utilize this feature, please text the number 81010 the code listed for your student(s) specific bus. This is completely optional but a service that we wanted to provide to help in opening the lines of communication in regards to bus concerns. If you were signed up last year, you need to sign up again as the threads were deleted due to adding new bus numbers and routes. Thank you for your continued support.
