

Math Flow Chart and Recommendations 2016- 2017

*AP Statistics may be taken after Honors Math III (avg >80) or after regular Math III (avg >90).

*SREB/Essentials of College Math is designed to be a student's last math course. It is designed for students that plan on attending a 4 year college upon graduation, but not major in a STEM field. (Performing Arts, Elementary Education, Language, Liberal Arts, Social Science, etc.)

*Pre-calculus and Calculus should be taken in the same year.

* Students can go to H AFM after AP Stats if scheduling conflicts occur in the matrix. Students must take H AFM before Pre-Calculus.
