A VISIT FROM THE MAYOR

The second grade classes have been studying government structure and the basic functions of local government for the past three weeks. They learned how rules and laws are made and which elected leaders hold responsibility for each function of government.

Mayor Michael C. Butler graced the classes with a visit to our school. He told the students about how public officials are elected to their posts. He also described his role as the Mayor of Orangeburg and the major accomplishments of his tenure. The students enjoyed getting this information as well as having the opportunity to meet the head of our local government.
