What You Do Matters

Every year, all across America, four out of 10 kids are already behind on the first day of kindergarten. Those who start behind work hard to catch up, but most never do. But there is something you can do about it! Click on the picture below to watch the video, **What You Do Matters**.

The First Five Years Impact

From birth to age 5, a child learns faster than at any other time in his or her life. Those early learning experiences influence success in school and beyond. Data shows students who start school behind, stay behind. Learn what you can do to nurture a child's development in their earliest years, preparing their minds for all future learning.
