- 7.50 Surplus Equipment and Supplies
  
- 7.60 Bidding Requirements
- 7.61 Joint Purchases
  
- 7.70 Salary Deductions
- 7.71 Travel Expense Reimbursement
- 7.72 Policy on Gifts

## Fund Balance Policy in Accordance with GASB Statement No. 54

**Purpose:** The following policy is necessary in order to address the implications of Governmental Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Governmental Fund Definitions.

**Governmental Fund Definitions.** The following definitions will be used in reporting activity in governmental funds. The Board may or may not report all fund types in any given reporting period, based on actual circumstances and activity.

The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest, even if it is being accumulated for future years' payments. Debt Service Funds should be used to report resources if legally mandated.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Fund balances will be reported in governmental funds under the following five categories using the definitions provided by GASB Statement No. 54:

- A. Nonspendable fund balances include amounts that cannot be spent because they are either (a.) not in spendable form or (b) legally or contractually required to be maintained in-tact. Examples of nonspendable fund balance reserves for which fund balance shall not be available for financing general operating expenditures include: inventories, prepaid items, deferred expenditures, long-term receivables, and outstanding encumbrances.
- B. Restricted fund balances consist of amounts that are subject to externally enforceable legal restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. Examples of restricted fund balances include: child nutrition programs, construction programs, and restricted grants.

- C. Committed fund balances consist of amounts that are subject to a purpose constraint imposed by formal action of the Board before the end of the fiscal year and that require the same level of formal action to remove the constraint.
- D. Assigned fund balances consist of amounts that are intended to be used by the school system for specific purposes. The Board authorizes the Superintendent or Chief School Finance Officer to make a determination of the assigned amounts of fund balance. Such assignments may not exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund. Assigned fund balances require the same level of authority to remove the constraint.
- E. Unassigned fund balances include all spendable amounts not contained in the other classifications. This portion of the total fund balance in the general fund is available to finance operating expenditures.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the Board to consider restricted amounts to have been reduced first. When an expenditure is incurred for the purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the Board that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts.

The Board of Education along with the Superintendent and Chief School Finance Officer will periodically review all restricted, committed, and assigned fund balances. The Chief School Finance Officer will prepare and submit an annual report of all restricted, committed and assigned funds for the Board of Education.
