Alabama Continuous Improvement Plan 2017-18   November 2017

HHS Goals 2017-18

As required by the Alabama State Department of Education, each year our faculty and staff create a plan for continuous improvement. Our leadership team comprised of teachers, students, administration, community members and parents meet to discuss surveys and data. The leadership team works to identify goals to help meet the needs of the students as a part of our Continuous Improvement Plan. These are our goals for this school year:

- Increase our average ACT score in Reading from 19.7 to 20.1
- Increase our average ACT score in Math from 18.8 to 19.2.
- Increase our average ACT score in Science from 19.1 to 19.5
- Increase English Learners (EL) Comprehensive Proficiency Levels as measured by the ACCESS given in the Spring of 2018.
- Use career technical courses to increase the percentage of Seniors who are meeting College and Career readiness from 54% (currently) to 100%.
- Continue the Bulldog Advisory program that provides each student on campus with an adult advocate who they meet with weekly during Advisory.
- Promote Parent and Family engagement through Open House in August and Parent Report Card day in September.

Survey Results

Strengths	Areas of Improvement
- Teachers have high expectations of students.	- Students and teachers feel rushed through the curriculum with a lack of flexibility
- Interactions between students, parent and teachers is positive	- More digital resources are needed.
- Classrooms are well-managed in a positive learning environment	- Students are doing more listening than talking/writing and not connecting classwork to real world.
