Hoover Edmodo Tips for Students

Students: At home, if you type in http://www.edmodo.com, you are **NOT** on the Hoover site and will not be able to log in using the Hoover username and password. You must visit http://hoovercity.edmodo.com/

Note: For devices that use the Edmodo App, it is not supporting our Hoover domain yet so use the web browser on your device until further notice.

|	
Students must log on HOOVER Edmodo to use the computer login username and password. At school, we automatically route you to the Hoover Edmodo site even if you type in www.edmodo.com **http://hoovercity.edmodo.com/** **Hoover site looks like image on the right.**	
If you go to http://www.edmodo.com you will see the" I'm a Teacher and I'm a Student" buttons. You should **NOT** use these. If you use *I'm a student*, you will create an account that is not in our Hoover domain. If you try to use the Hoover login id, it **won't work** on this site. Make sure you are on the Hoover site and use your computer login and password.	
We now have an Edmodo link on the Brock's Gap Web site. Please use this link when at home to access Edmodo Hoover. http://brocksintermediate.al.hci.schoolinsites.com/	
Students, you only need to use your teacher's group code ONE time. Once you join, you will be in the group until your teacher removes you or you withdraw.	
If a you log in with the new Hoover login from this year **and** you had an account last year, you may see this screen the first time. (see image) • You can choose to enter last year's account to merge the 2 accounts (if you remember the login) • **OR** you can just click "**I do not have a previous account**" and you will be prompted for your teacher's Group Code. • If you Merge the accounts, you will need to choose the **Join** button to enter the teacher's group code and join the group.	(on left side under Groups)
