

Rules & Discipline Plan Physical Education Department

A safe, orderly, and supportive class environment is a major goal of the Spain Park High School Physical Education Department.

The physical education staff recognizes that one of the most valuable lessons educators should teach is discipline. Even though it does not appear as a subject in the curriculum, it does underlie the entire education structure. It is recognized as the training that helps develop self-control, character, efficiency, and effectiveness. In this class, discipline is viewed as the key to good conduct and appropriate considerations for other people.

Student Expectations
