

Moulton Middle School

Parent Placement Form

Student Name: _____ **Grade:** _____

Please list the course or courses in which you want you student placed that are different from those recommended by his or her teachers.

Parent-Placed Course <i>Example: Honors Math</i>	Teacher Recommended Course <i>Example: Math</i>

The parents of the above named student choose to change the placement recommendation of Moulton Middle School.

We, the parents, understand that our child is not recommended for the course listed above and would like to change the recommended placement. We are also aware that once my child has been parent-placed into a different class, no schedule changes will occur until the end of the first semester. If a schedule change occurs at the end of the first semester, all grades from the parent-placed class will transfer with the student.

If you decide to place your child in the advanced course, be aware of these stipulations. Should there be a need to change to the recommended lower level course, the student's grade will transfer to the lower level course, and changes will only occur at the end of the first semester.
