

STOP the

SUMMER SLIDE

Need some ideas to help prevent the "Summer Slide" in Reading and Math? Check out these Free and FUN opportunities!

ALSDE Math Challenge with QUANTILE

The Summer Math Challenge is a Free math skills program based on grade-level standards that help prepare students for college and careers. The program is targeted to students who have just completed 1st through 8th grades and is designed to help kids retain math skills learned during the previous school year.

Fact

Summer learning loss isn't a temporary phenomenon. Losses can accumulate over years, eventually resulting in students who perform below their grade level. Learning loss is much less pronounced, if there at all, in families that enrolled children in classes, took trips to local libraries, participated in reading programs, or took advantage of other, often free, learning opportunities.
