

**Summer Reading Assignment James Clemens High
AP Lit 2016**

Behind every piece of literature is a question. Great authors challenge and inspire readers to ponder the world around them. What do you think Orwell wants you as a reader to consider in *1984*?

In a 4-5 paragraph essay, explain what you think is one of the major meanings of the work. Make specific references to both the novel and to *How to Read Literature like a Professor* to support your idea. This response must be a minimum of 1 and a half double - spaced typed pages using 12 point font.
