

Alabama's Bicentennial School Project: Eagle Eyes Preserving History Clark-Shaw Magnet School

How to Upload to Moodle:

This is a required 2nd Quarter project for all social studies classes.
Due: Nov. 30, 2018.

MCPSS Moodle address: <https://engage.mcpss.com/login/index.php>

1) Students are required to submit a link to their video in Moodle. You may submit a link to a link to a video you have saved to your OneDrive or Google Drive. Note: You will not be able to upload a video file here because the files are too large. Only shareable links will be accepted.

2) You will paste the link in the online text box in Moodle and click the submit button. Note: You cannot go to the address bar and copy the link that is in the address bar. You must choose to share your video and you will copy the shareable link that is generated for you.

If you are using your OneDrive or Google Drive, please follow these instructions:

You must turn in a “shareable link” for us to be able to view your video. To do this:

- Go to Google.com and log in
- Click the grid icon in the top-right and choose “Drive”
- Find the file and right-click it
- Choose “Get a shareable link” from the right-click menu

That should copy the shareable link to your clipboard, but you can also select and copy it from the box that appears:

Then paste this link into the assignment in Moodle.

If you have any questions or difficulty, please email your teacher, visit the library, or ask Mr. Sikes or Ms. Roberts for assistance.
