Catholic Social Services is offering a new opportunity for the youth in our community. **Extended Family for Kids** is a solution-based program for children, ages 10 through 16 years of age, who have an incarcerated parent or family member. The purpose of the program is to give children the necessary tools needed to cope with this difficult time in their lives.

Extended Family for Kids includes lessons on anger resolution, accepting responsibility for personal actions and improving communication skills. It also includes how to build one's self esteem, ease feelings of shame and isolation and decrease stress. The program is geared toward the child who has a family member incarcerated in a local, state or federal institution.

The sessions, which will run for 7 consecutive weeks, will be offered at Catholic Social Services, 188 South Florida Street, Mobile, AL 36606 starting on **Tuesday, October 11, 2016 from 4:30pm to 6:00pm**. We recommend children who are participating in the program to attend every session. Each group session will consist of children close to the same ages. Written parental permission must be given to each participant to attend the program.

If you have questions or need additional information, please call Buffy Marston, Licensed Professional Counselor, at 251-434-1550 or email bmarston@cssmobile.org for additional information.

Crittenton Youth Services

A United Way Agency

Dear Parent or Guardian:

Crittenton Youth Services (CVS) will be offering a small group curriculum (6 students per group) for 7th and 8th grade females (who are chosen by their teacher and counselor) 1 hour once a week for 14 weeks. Kathy Langham will instruct the female groups. The curriculum is called Young Women's Lives. The goals of this programs are to increase self-esteem, communication skills, positive feelings of belonging to a group, a belief in the future, and decrease any feelings of anger, frustration, trying to control things that are beyond her control, being bullied by others and any issues that may affect their academic/school success.

Topics are:

- Understand the importance of feelings
- Can a Girl be a Bully
- Recognize the destructive parts of Anger
- Recognize that they are more than their Appearance
- Think about plans for the Future
- Identify the pressures or obstacles that they face as a Teen
- Become Allies for Ourselves
- Understand that people are Strong and Resilient
- Describe the Cycle of Violence
- Learn how to take care of Yourself (avoid risks)
- What is a real relationship?

Sincerely,

Joy Logan
Executive Director

DIRECTIONS: PLEASE GIVE A COPY TO THE PARENT(S)/GUARDIAN(S) TO BRING TO THE SESSION.

Administrators need to retain a copy of this form and send a copy via email to Takisha Gordon at the Division of Student Support Services tgordon1@mcpss.com. Parents must bring a copy of this enrollment form to the session.

The Mobile County Public Schools is offering a Conflict and Anger Management Prevention Program (CAPP II) for students and their parents. This program is offered to students who have violated the Student Code of Conduct as it relates to violence. CAPP II may be used, at the principal's discretion, in addition to other disciplinary procedures prescribed by the MCPSS Student Code of Conduct.

The CAPP II Program (K -12th grades) will be held at DAVIDSON HIGH SCHOOL on Thursday nights from 5:30 p.m. – 7:30 p.m. The parent(s)/guardian(s) will be notified by the Program Coordinator as to when to attend the sessions at Davidson High School.

Successful completion of CAPP II is defined as attendance by the student and at least one parent or guardian at each of the two consecutive 2-hour evening sessions. (It is recommended that the same parent attend all sessions; both parents attending all sessions are ideal.) Principals will be notified of a student's completion or non-completion of the program.

My signature below indicates that my child has been offered the CAPP II Program as a term of discipline for violation of the anti-violence policy.

I choose to attend CAPP II _____

I choose not to attend CAPP II _____

Please do not bring younger siblings under the age of 6 to the sessions.

BE ON TIME. NO ONE WILL BE ADMITTED 10 MINUTES AFTER CLASSES HAVE BEGUN. UNDERSTAND THAT MY CHILD MUST ATTEND CAPP II BEFORE RETURNING TO REGULAR SCHOOL.

***My signature below indicates that I understand that my child must attend CAPP II as a term of suspension for Anger Management.**

BULLYBLOCKER

START TEXTING TO STOP BULLYING
TEXT "BULLYBLOCKER" TO 444999.

Purpose

BullyBlocker is an anonymous texting program that allows young people to openly communicate and report bullying incidents to the Mobile County District Attorney's Office.

- The program will assist with bullying occurring on school buses, campuses, after school, church, in the neighborhood and via social media and websites.
- We will assist parents, students, Principals and school staff with resolving/addressing bullying behaviors.
- Provides education and awareness to schools and agencies working with youth.

How BullyBlocker Works

1. Go to any cell phone that has texting capabilities.
2. Hit create text.
3. Type in 444999 as the address you want to send the text.
4. In the message box type in the word BullyBlocker and hit send.
5. You will receive a message back of thanks.
6. Then, you will get a message back asking a series of questions.
 - a. You will be asked to reply A if you're being bullied, B if someone else is, or C if you'd just like to talk about it. Choose a letter.
 - b. Then, give us your name and school/location
7. You will receive another message back that tells you we are working on it along with our website and telephone information if more help is needed.

BayPointe's Children's Hospital and Residential Treatment Center

BayPointe Hospital opened its doors in 2002 as a free-standing psychiatric hospital serving the Mobile community and specializing in children's inpatient care. Located in west Mobile on a beautiful 15-

BayPointe Hospital, Mobile, Alabama

acre campus, it offers short-term stabilization in an inpatient setting and long-term treatment in a residential setting for children and adolescents.

Many factors must be considered before admission to BayPointe is appropriate. Often these children have suffered from abuse, neglect or substance abuse and an intervention is desperately needed. They may be disruptive, sometimes uncontrollable, exhibiting suicidal, aggressive or other unsafe behaviors and can no longer function in their homes and community settings.

BayPointe hospital and residential programs are located in the same facility. Patients can move fluidly between programs depending on the level of care and the amount of time needed for treatment. BayPointe's Children's Hospital provides a caring and secure environment where children 5 to 12 years of age and adolescents 13 to 18 years of age receive the stabilization they need to alleviate their acute symptoms as swiftly as possible. BayPointe's qualified staff provides supervision 24 hours a day, 7 days per week throughout an estimated stay of three to 10 days.

When a child or teen living with a psychiatric illness cannot thrive in the home or in a community-based setting, an intensive, structured program may be prescribed. BayPointe Children's Residential Treatment Center cares for children 5 to 12 years of age and teens 13 to 18 years of age. The program provides medically monitored intensive and comprehensive psychiatric treatment for children and teens. The average length of stay is nine to 12 months.

BayPointe is accredited by The Joint Commission, certified by the Alabama Department of Mental Health and licensed by the Alabama Department of Public Health. It is a division of AltaPointe

Health Systems, the largest psychiatric and behavioral healthcare provider in Alabama. AltaPointe has provided care since 1957, operating as Mobile Mental Health Center until it was rebranded in 2007. In addition to BayPointe, AltaPointe offers a comprehensive continuum of care for children and teens including outpatient, day treatment, residential and transitional age programs, all of which are tracked and monitored through electronic medical records.
