Rigor/Relevance Framework

¡A | Acquisition

Students gather and store bits of knowledge and information. Students are primarily expected to remember or understand this knowledge.

¡B | Application

Students use acquired knowledge to solve problems, design solutions, and complete work. The highest level of application is to apply knowledge to new and unpredictable situations.

¡C | Assimilation

Students extend and refine their acquired knowledge to be able to use that knowledge automatically and routinely to analyze and solve problems and create solutions.

¡D | Adaptation

Students have the competence to think in complex ways.
