Scarborough Model Middle School
Project SMART
21st Century Community Learning Center
What is a 21st CCLC?

A community learning center that provides students and families with the following:

– academic enrichment and tutoring services to help students meet academic standards

– various activities and programs to reinforce concepts from the regular school day

– parent informational sessions

– a safe and supervised learning environment after-school and in the summer
Project SMART Goals
Scarborough Math, Art, Reading, & Technology

• Increase reading and math student achievement
• Improve student attendance during the school day
• Increase students’ STEM awareness
• Increase parental involvement
• Provide service learning opportunities for students
