*Teamwork Makes the Dream Work***

Academy Overview

Vigor High School launched our career academies to students, parents, the community, and business partners in the fall of 2015. Our mission is to graduate students who are college and/or career ready by equipping them with the necessary knowledge and skills to be productive citizens in society.

At Vigor, our students will be able to choose pathways and courses from our Signature Academy of Advanced Information Technology, Humanities and Public Services Academy, and the TV Production and Broadcasting Academy. In addition, our students will be able to job shadow, participate in hands on learning activities, and summer internships with our academy partners. Students will also have opportunities to gain first-hand knowledge from employees in the industries directly related to their academy selection.

Students will choose their academy and perspective pathway in the spring of their 9th grade year. All students are required to successfully complete the course sequence that is outlined in each academy and/or pathway and will earn various credentials and certifications upon completion.

More information and highlights about our career academies can also be found on vigor.mcs.schoolinsites.com.
