OUR BELIEFS

Every student is a leader.

All children can and will succeed.

Student learning is the chief priority of the school.

Students and staff have a right to a safe and secure environment.

All children can learn and are deserving of love, respect and compassion.

Students' learning needs should be the primary focus of all decisions impacting the work of the school.

Self-discipline is a prerequisite for the development of higher-order thinking skills and lifelong learning.

Differences in learning styles exist, therefore: students have a right to learn in a way that brings them personal success.

Each student has a responsibility for actively participating in his or her learning and achievement as well as demonstrating self-management skills.

All children should be provided a variety of instructional approaches to accommodate various learning styles and be actively engaged in their learning.

All students should be provided academic, social, emotional, physical and character developing skills to be prepared to live successfully in an ever-changing society.

The commitment to continuous improvement is imperative if our school is going to enable students to become confident, self-directed lifelong learners and leaders.

The school, home and community must share responsibility for the needs and development of children while fostering an appreciation for individual needs and cultures.
