## CARROLL HIGH SCHOOL LESSON PLANS

Lisenby - Digital Design - Oct 16-20, 2017

Subject:	Monday	Tuesday	Wednesday	Thursday	Friday
ACCRS:	2.) Demonstrate	1.) Apply personal and	1.) Apply personal and shop	1.) Apply personal and	1.) Apply personal and shop
	various computer	shop safety rules,	safety rules, regulations,	shop safety rules,	safety rules, regulations, and
	operations using	regulations, and	and procedures for using	regulations, and	procedures for using media in
	industry standard	procedures for using	media in a safe and	procedures for using	a safe and responsible
	software for word	media in a safe and	responsible manner,	media in a safe and	manner, including cleaning,
	processing, illustrating,	responsible manner,	including cleaning, storing,	responsible manner,	storing, and replenishing
	photo manipulating,	including cleaning, storing,	and replenishing supplies.	including cleaning, storing,	supplies.
	and scanning.5.)	and replenishing supplies.	4.) Demonstrate advanced	and replenishing supplies.	4.) Demonstrate advanced
	Utilize drawing and	4.) Demonstrate advanced	application of the digital	4.) Demonstrate advanced	application of the digital
	rendering techniques	application of the digital	design process.	application of the digital	design process.
	and advanced	design process.	and a second	design process.	, , , , , , , , , , , , , , , , , , ,
	illustration skills for	B.: F		and the second	
	digital design.				
Before:	Uniforms, clock-in	Uniforms, clock-in	Uniforms, clock-in	Uniforms, clock-in	Homecoming stuff
During:	Continue business	X Acto cutting, spray	Continue X Acto	Continue X Acto	Continue X Acto cutting,
_	card layout	adhesive training.	cutting, spray adhesive	cutting, spray	spray adhesive training.
	re-work.	Project to measure	training. Project to	adhesive training.	Project to measure and
		and cut black	measure and cut black	Project to measure	cut black construction
		construction paper	construction paper	and cut black	paper square at 9"x9" and
		square at 9"x9" and	square at 9"x9" and	construction paper	white construction paper
		white construction	white construction	square at 9"x9" and	at 5"x5". Spray adhesive
		paper at 5"x5". Spray	paper at 5"x5". Spray	white construction	on white square and
		adhesive on white	adhesive on white	paper at 5"x5". Spray	eyeball placement onto
		square and eyeball	square and eyeball	adhesive on white	center of black square.
		placement onto	placement onto center	square and eyeball	
		center of black	of black square.	placement onto	
		square.		center of black square.	
	Clock-out, clean-up	Clock-out, clean-up	Clock-out, clean-up	Clock-out, clean-up	Clock-out, clean-up
Desired	6. 1				
Desired	Students will learn	Students will learn how to	Students will learn how to	Students will learn how to	Students will learn how to use
Outcome:	how to create a	use an Xacto knife	use an Xacto knife properly	use an Xacto knife properly	an Xacto knife properly as well
Outcome:	how to create a business card layout	use an Xacto knife properly and safely, as	use an Xacto knife properly as well as spray adhesive.	use an Xacto knife properly as well as spray adhesive.	an Xacto knife properly as well as spray adhesive. This activity
Outcome:	how to create a business card layout from previously drawn	use an Xacto knife properly and safely, as well as, spray adhesive.	use an Xacto knife properly as well as spray adhesive. This activity will help train	use an Xacto knife properly as well as spray adhesive. This activity will help train	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for	use an Xacto knife properly as well as spray adhesive. This activity will help train	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.
Outcome: Formative/	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity
Outcome:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on
Outcome: Formative/	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity
Outcome: Formative/	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.
Outcome:  Formative/ Summative	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on
Formative/ Summative Higher Order	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.
Formative/ Summative Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact measurements? What is the safest ways to use an	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact measurements? What is	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact measurements? What is the safest ways to use an	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact measurements? What is the safest ways to use an Xacto knife? How is spray	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed into a business	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed into a	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed into a business card in
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact measurements? What is the safest ways to use an Xacto knife? How is spray adhesive used? How can you use your eyes to measure center	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed into a business card in	an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed
Formative/ Summative  Higher Order Questions:	how to create a business card layout from previously drawn vectors in Illustrator to be used as a background in InDesign and print production.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed	use an Xacto knife properly and safely, as well as, spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How is an Xacto knife properly used? How can you cut with exact measurements? What is the safest ways to use an Xacto knife? How is spray adhesive used? How can you use your eyes to	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo? How can an effective logo design be transformed into a business	use an Xacto knife properly as well as spray adhesive. This activity will help train the eyes of students for more accurate design skills.  Assessing students creativity and skills based on performance.  How can a business card be created in Illustrator to be used as a background in InDesign? What company can be represented by an animal logo?
