** - Student may be eligible for ENR094

Retest

A student who wishes to challenge placement results may retest once per academic year provided there is evidence the student has completed test preparation activities. Additional preparation includes but is not limited to: academic boot camps, online pre-tests, and placement test applications. Bevill State will charge a one-time fee for retesting per subject area of \$10.00. Placement test scores will be valid for three years from the date of the original or retest assessment.
