STATEMENT OF SUPERINTENDENT JENNY SEALS REGARDING STUDENT CONDUCT AT MOODY HIGH SCHOOL

I have seen the disturbing picture of Moody High School students that is circulating on social media. School officials are in the process of investigating this matter. I understand that all students involved are friends and participated voluntarily in creating the picture, which they say was intended to be a “joke”. Obviously, there’s nothing funny about the picture. It is offensive and unacceptable, and it does not reflect the values of Moody High School, the St. Clair County School System, or our community. All students involved will be disciplined appropriately. We will continue to educate our students on the values of dignity, equality, and decency and on the importance of making good decisions in life.
