

Instructions: Using the passage titled Native American Cultures, fill in the chart with the correct information. The regions have already been listed for you. In the second column, list the tribes that were located in each of the regions. In the third column, describe the environment of the region. This would include physical features and also climate. In the last column, describe the culture or lifestyle of each tribe. In other words, how did the tribes live/survive. This is to be kept in your notes, and completed for homework if you do not finish in class.
