United States Department of Agriculture

USDA/1890 National Scholars Program

2014 COLLEGE APPLICATION

National Scholars Program

INTRODUCTION

Thank you for your interest in the USDA/1890 National Scholars Program. The USDA/1890 National Scholars Program was established in 1992 as part of the partnership between the U.S. Department of Agriculture and the eighteen 1890 Historically Black Land-Grant Universities.

The goal of the USDA/1890 National Scholars Program is to increase the number of minorities studying agriculture, food, natural resource sciences and other related disciplines. Each year, hundreds of students apply for the program, which provides full tuition, as well as room and board.

The USDA/1890 National Scholars Program is implemented under the USDA Fellow Experience Program (FEP). Applicants accepted into the program will be appointed using the Schedule A(r) authority (5 CFR 213.3202) and are *not eligible for automatic conversion* to full time employment upon graduation.

A USDA/1890 National Scholar may apply for a Pathways internship, *which does automatically convert* to full time employment upon graduation. However, a student cannot be both a USDA/1890 National Scholar and a Pathways intern at the same time. For more information about the Pathways internship program, go to <https://www.usajobs.gov/StudentAndGrads>.

The USDA/1890 National Scholar is required to:

- 1.) Compete for appropriate employment immediately after graduation and, if selected, commit to at least one year of service to USDA for each year of financial assistance provided.¹
- 2.) Reimburse the USDA Sponsoring Agency for costs of education (excluding the employees' pay and allowances) incurred by the USDA Sponsoring Agency if the scholar is voluntarily separated from the service of the USDA Sponsoring Agency before the end of the period for which the scholar has agreed to continue in the service of USDA.
- 3.) Consult with and obtain the approval of the sponsoring agency prior to any changes to the academic program. Unauthorized changes will affect continuation of the scholars' participation in the program.

¹ Specific details of this "service requirement" will be outlined in the agreement entered into by the selected Scholar, the University at which Scholar is matriculated, and USDA. Also, the "service requirement" is subject to change.

The USDA/1890 National Scholars Program is available to rising college sophomores and juniors who exhibit leadership, community service, and desire to attend one of the 1890 Historically Black Land-Grant Universities. Again, thank you for your interest and best wishes in your pursuit of academic excellence.

Sincerely,

USDA/1890 National Scholars Program
