6th Grade Class Assignment Request

Dear Parents: Board Policy 6152(a) states that students should be assigned to classes and/or grouped in a manner that provides the most effective learning environment for all students. When assigning students to specific classes, the principal or designee may consider the following criteria:

1. Staff recommendations, including, but not limited to, the recommendations of teachers and counselors.
2. Skills and classroom management style of that individual teacher.
3. Student skill level as indicated by achievement and testing.
4. Balance of high, medium, and low academic achievers.
5. Student interests, readiness, behavior and motivation.
6. Student/teacher ratios and, if relevant, class size reduction considerations.

The principal or designee may accept from parents/guardians any information which would be helpful in making placement decisions. Parent/guardians should keep in mind, however, that request for a specific teacher is only one of the many factors which may be taken into account when determining his/her child's placement. During the school year, the principal or designee may make any adjustments in class placement which he/she considers beneficial to the students or the educational program.
