

# Plato Courseware

## Apply Past Credit

### What progress data is carried over with the Apply Past Credit feature?

Mastery, exemption, score, completion, and number of tries are carried over for selected activity types:

- Mastery of mastery tests
- Exempted modules

Completion status, scores, and number of tries that carry over:

- Mastered mastery tests
- Tutorials, applications, problem-solving activities, etc. in mastered modules
- Completed activities in PLATO elective content, including Midterm and Final Exams
- Offline activities that report Record Completion
- Practice activities

### What progress data is NOT carried over with the Apply Past Credit feature?

Completion status and scores in the following activities are not carried over with the Apply Past Credit feature:

- Pretests, posttests, and end of semester tests
- Tutorials, applications, problem-solving activities, quizzes, digital drop box activities, etc. in modules that are not mastered or completed

They are designed to apply only to learning modules, not to unit or course level assessment tests.
