

Guide for Log In/Out Edmentum Plato Courseware

1. Go to PVHS website <http://www.pvhspanthers.org/> and click on this  icon/button located at the right side of the homepage for login link and guide.

2. This page will be displayed:

3. Please click on  and be sure to print and read the **IMPORTANT** information/guide (which will help you succeed in working and completing your Plato class sections).

4. Click on  and log in with your school email address and password.

Username: student 6-digit id@students-smjuhsd.org (Stu Email Address)

Password: same school password (Network Login ID)

5. After the  loading screen, click on the Edmentum icon  on .

6. Your **Active Assignments** will list all your Edmentum Plato class sections, just work on the one you are currently assigned (with **PV** prefix) by clicking on .

7. Please refer to the **Important Information Accessing Edmentum Courseware** (next) page to be successful in working on your class section/s assigned; **so, you'll NOT be "timed out" or "logged out" unexpectedly and losing your work!**

8. Do not leave your account idle; always log out promptly when done. Do not click on the  on the browser to exit but always exit by clicking on  so your work will be correctly and automatically saved.

9. You can click on "Log In" again from this screen  after you sign out, just click  or log in with .

Important Information Accessing Edmentum Plato Courseware (to prevent losing your work)

- **In Plato, without running lessons, Time in System ends after 1 hour of inactivity.**
- **When running lessons, Time on Task ends after 2 hours, regardless of activity.**

A Plato Courseware session times out after 60 minutes of inactivity for all user roles if they are not running an activity from PLATO content.

For example, you will be “**timed-out**” if you take more than **60 minutes** typing a long response/answer; it’s still considered as “**inactivity**” because you remain on the same activity/screen. **So, when you click submit after 60 minutes, you will be automatically logged out and your work will NOT be saved, and thus NOT recoverable!** So, it’s very important that you **type your (long responses) answers on a document file** (and **save**) before **copy and paste** your answers, to avoid frustration of losing your hard work!

There are various other ways you could be logged out as well, such as:

1. Leaving the lesson open for more than 2 hours. Regardless of mouse clicking or moving from page-to-page, the absolute time limit in a lesson is always 2 hours. No amount of “activity” will extend that time.
2. If a student does not complete the lesson within the 2-hour limit, all work on that lesson will be lost and Time on Task will be recorded as 2 hours. This rule applies to all student-launched activities, including tutorials, mastery tests, and all assessments (Pre-, Post, End of Semester, and Test Packs).
3. Launching another activity simultaneously (e.g. opening a tutorial to find answers to a mastery test that is currently open). This can be within the same browser or with another browser, or on the same or different computers.
4. The rule is that only one lesson can be open at one time for the same user. **Plato secures the integrity of the content and will prevent students from having more than one lesson opened at a time by abruptly closing the browser window.**
5. Using the back button on the browser to get back to the assignment page.
6. Losing internet connection.
7. The user clicks the “exit” button on the tutorial. This is the preferred and most common way to end a lesson session.

Edmentum Plato Courseware Tests

Pre-Tests, Mastery Tests, Post Tests & End of Semester Tests

District's new guidelines on Distance Learning for CP & Non-CP class sections:

Pre-Tests

Students can no longer be exempted out from modules; thus, all Pre-Tests are **NOT** accessible.

Mastery-Tests (Quizzes)

Students have **3 attempts** for each Mastery Test. If you need to retake the Mastery Test after 1st attempt, you have to go through and review the entire Tutorial (so take notes) and the Mastery Test will be unlocked. You are allowed to do this twice to unlock each Mastery Test for a total of 3 attempts.

Remember:

DO NOT click on any test and just exit (to perhaps take a “peek”); you will get an automatic “**0%**”, the test will be **locked** and it will be counted as one attempt.

DO NOT launch another activity simultaneously (e.g. opening a tutorial to find answers to a test that is currently open). This can be within the same browser or with another browser, or on the same or different computers. Plato secures the integrity of the content and will abruptly closing the browser window.

Post Tests (Midterms)

Students have **one** attempt for each Post Test; so, do not click on the Post Test unless you are ready and have enough time to complete it. The Post Test will be **locked** once you “**Save and Exit**”. You **CANNOT** unlock the test by completing the Tutorial, just like for Mastery Tests.

End of Semester Tests (Finals)

Students have **one attempt** for the End of Semester Test (same as Post Tests). Some End of Semester Tests could have 50 to 60 questions; so, do not start the test unless you are ready.

The test will be **locked** once you “**Save and Exit**”. Under special circumstances, your teacher might unlock the test for you.

Post Tests and End of Semester Tests are now required for both CP and Non-CP class sections.

Final Course Grade:

➤ **Non-College Prep OTCR courses** - Student can only earn CR. (CR will be given if **60%** of the Non-College Prep course modules and activities are completed with an average grade of **60%** or higher – **temporary adjusted requirement**).

➤ **College Prep OTCR courses** - Student will earn a Letter Grade. (Letter Grades will be given if **100%** of the College Prep course modules and activities are completed with an average grade of **70%** or higher.)

Grading scale will be: **C (70-79%); B (80-89%); A (90%+)**

CP/Non-CP vs Supplemental Class Sections

IMPORTANT: Do not work on Supplemental class sections unless instructed by your regular class teacher/s.

The screenshot displays the 'Active Assignments' section of a learning management system. It lists four course sections, each with a 'NO' or 'YES' annotation and an arrow pointing to a specific section name.

- Section 1:** PLATO Course California World History, Culture, and Geography, Semester A. The section name 'Supplemental_CP_Modern World History A (P) - DePaulo - 6' is circled in red. A red arrow points from a 'NO' button to this section.
- Section 2:** PLATO Course English 9, Semester B v6.0. The section name '21-CP-Eng 9B (P)' is circled in green. A green arrow points from a 'YES' button to this section. The current grade is B (80.00%) and the course grade is F (2.00%).
- Section 3:** PLATO Course English 10, Semester A v5.0. The section name 'Supplemental_CP_Eng 10A (P) - Feher - 5' is circled in red. A red arrow points from a 'NO' button to this section.
- Section 4:** PLATO Course Biology, Semester A v6.0. The section name 'Supplemental_CP_Integrated Ag Biology A- Baldwin - 7' is circled in red. A red arrow points from a 'NO' button to this section.

Each section card includes a progress bar, a 'Select New Activity' button, and a 'No Due Date' indicator. The second section also shows a 'Rhetorical devices: Mastery Test' activity that is locked.
