Student Name: _____

Internet/Acceptable Use Policies

The MSMHS curriculum makes extensive use of resources on the Internet, and it is vital that students avoid dangerous, destructive and unlawful behavior when using the internet. All students (and their parents) must sign an acceptable use policy which indicates that the student agrees to use the Internet exclusively for educational purposes and to abide by MSMHS Computer Technology Use Rules. Students found violating the acceptable use policy, especially by viewing inappropriate sites, are subject to suspension and revocation of computer privileges for a specified period of time.

In the MSMHS technological environment, cellular devices may be integrated into the lesson. Student possession and use of cell phones, iPods, iPads, and similar devices are permitted at MSMHS when utilized under the direction of a staff member in the delivery of curriculum and instruction. In the classrooms, science labs, and in other learning settings, students must have their cellular devices off and in plain sight, and await instructions for their use as the teacher deems appropriate. Students possessing or using an electronic device that inhibits teaching and learning or that does not support the school mission will have their portable electronic device confiscated and held for parents to claim. Student use and possession of electronic devices are always at the discretion of the teacher and school.

- Users must not alter the "from" line or other attribution-of-origin information in e-mail, messages or postings. Anonymous or pseudonymous electronic communications are forbidden.
- Users must identify themselves honestly and accurately when participating in chat groups, making postings to news groups, sending e-mail, or otherwise communicating on-line.

Without prior written authorization from the administration, users may not do any of the following:

- Copy software for use on their home computers;
- Provide copies of software to any independent contractors or clients of LEARN or to a third person;
- Open/tamper with or install hardware on workstations without authorization;
- Remove software from LEARN premises;
- Download Astreaming content for extended periods of time (i.e. Areal audio, etc.)
- Install software on any of LEARN's work stations or servers;
- Download any software from the Internet or other on-line service to any of LEARN's work stations or servers;
- Modify, revise, transform, recast, or adapt any software; or
- Reverse engineer, disassemble or decompile any software.

Users who become aware of any such misuse of software or violation of copyright law should immediately report the incident to the administration.
