

Kindergarten

M	A	T	H	O
Find the numbers 0-20 in a magazine and cut them out.	Roll two number dice to make a two digit number (Roll a 4 and 2 to make 42). Color the numbers on a 100 chart. What was the highest number you rolled?	Have an adult count to 100 with you, take turns saying the odds and evens, then switch.	Use a deck of cards to play Place Value War.	Set the table for dinner. Find out how many plates, napkins and forks you will need.
Find out how many windows are in your house.	There are 7 birds in the tree. 3 flew away. How many are there now?	Count by 10's and see how far you can go.	Use a deck of cards to play War with a partner.	Read a book about math. Write down the title. _____
Use pasta or play dough to make the teen numbers.	Go on a walk and count how many animals you see.		Do 100 jumping jacks and count each one out loud as you go.	Show all the different ways that you can make the number 7 with 2 numbers.
Use a deck of cards to play Addition War with a partner.	Start at your front door and take 120 steps. Where do you end up?	Write the number 13 on a piece of paper and turn it into a picture.	Count the number of coins in your Mom's wallet (not the value).	Oliver ate 3 cookies on Monday and 6 cookies on Tuesday. How many cookies did Oliver eat?
Who has the most stuffed animals in your house? How many do they have?	Put 12 cheerios in a cup; shake, dump and count them. Repeat 10 times. Does the amount change?	Flip a penny 50 times. Keep track of how many times it lands on heads vs. tails.	Use a deck of cards to play Subtraction War.	Roll 2 dice and add the numbers together. Repeat 20 times.
