FALL 2016
After-school
programs

Agent Lab

SPY ACADEMY

Look out 007- the Mad Science Spy Academy is in session! Use edible messages and decoding clues to journey into the world of espionage. Communicate like a real spy with your Secret Code Breaker take-home.

AGENT UNDERCOVER

Calling all agents! Get into gear with Agent Undercover and learn more about what it takes to be successful in the spy world. Step into the shoes of a spy in action with your Undercover Observer take-home.

JR. DETECTIVES

Are detectives really scientists in disguise? Discover what it takes to be a detective in this hands-on look at detective science and continue developing your skills of observation at home with your Mad Science Inspektikit.

DISCOVER DETECTION

More hands-on opportunities to step into the shoes of a detective as you analyze evidence and discover more skills needed to scope out a crime scene.

CSI

This isn't a TV show, this is hands-on Crime Scene Investigation! Experience how real forensic scientists use careful observation, evidence, science and some cold, hard facts to figure out just what happened at a crime scene!

SNEAKY SCIENCE

Think you can get past sound detectors, laser trip wires and our take-home spy-glasses that see behind you? Learn about the science and technology agents might encounter as they sneak around, and play a cool laser-bounce game.

Kids get a cool science take-home every week!

**Note not all topics may be covered depending on length of program.*

ALARMING SCIENCE

Locks, clocks, alarms, tripwires and a secret safe take-home are featured in this very hands-on exploration of the science of security.

FUNKY FORENSICS

Learn all about the science of forensics in this hands-on look at crime scenes. Probe the science of tracking and take home our awesome Case Stamper.

CRIME LAB

Analyze clues and get hot on the trail of a crime suspect in our Mad Science Crime Lab. Continue the fun at home with your very own Spynoculars.

SLEUTHS ON THE SCENE

Suspects, schematics, and sleuths...oh my! Connect the dots using science to help solve a mystery in this hands-on investigation of the science of sleuthing.

WHODUNIT?

Want to know who did it? Test your skills and learn how the pros do it through careful observation and techniques to handle evidence properly.

DETECTIVE SCIENCE

Now that our secret agents have learned all about forensics and other detection techniques, they will use their new skills and powers of observation to crack a difficult case! Kids will also take home a Personal Profiter for practice at home.

Sparkling Imaginative Learning

Give your child the best
BIRTHDAY PARTY EVER!

I can't wait to

You know that feeling when you just can't wait for tomorrow?

The feeling you get when you're with your friends and you're talking about all the fun things that could happen? We love that feeling! So let's do all the cool stuff you imagined—like exploring the outdoors, creating your own artistic masterpiece, or helping the community with new friends. We'll always be counting down to the next adventure—and the next one, and the next one—together.

Start the fun now!

Give the gift of time to help a girl discover Girl Scouts! Be the role model she'll always remember. Please contact: Kathy, [kvrn76 @att.net](mailto:kvrn76@att.net), 860-257-9881

Adults can join in the fun, too! gsofct.org/volunteer

ADVENTURE IS WAITING.
BUILD YOURS.

JOIN CUB SCOUTS

Rocky Hill Cub Scout Pack 135 would like to invite all boys grades K - 5 to explore all the fun scouting has to offer. Last year's activities included: Rocket making and launch, making and racing pinewood derby cars, hiking, camping, sleepover at Sturbridge Village and so much more. Join us at Stevens at Elementary School on Thursday, September 29th at 6:30 P.M. to learn more about what scouting has to offer. Contact Andrea Collura with questions: Ajcollura@sbcglobal.net or (860) 529-7004.
