

Elementary Program

Curriculum development and revision are ongoing processes in the Carroll County School System which is in the process of phasing in new state and national standards. At the elementary level curricula for reading/English/language arts and math are based on the Common Core Georgia Performance Standards while science and social studies curricula are based on the Georgia Performance Standards. The Carroll County School System has high expectations for student achievement as teachers, parents, and students work in partnership to facilitate thorough understanding of the content covered by the curriculum. Visit the links below to learn more about the specific curricular expectations at each grade level.

(insert link to Grades K-5 Learning goals here)

For additional information on the new Common Core Georgia Performance Standards, visit (link to CCGPS at Georgia standards.org)
