An excerpt from the December issue

### "I love the learn"

Children devote more energy to learning when they're motivated. These ideas will boost your youngster's thirst for knowledge.

#### Show enthusiasm

Tell your child what you learn. ("I found out that about 90 percent of the world's population lives in the Northern Hemisphere!") Also, ask him to teach you information he learns in school. If he's studying nocturnal animals, he might explain to you why his hamster runs on its wheel at night. He'll see learning as an everyday activity for kids and grown-ups, and your attitude will be contagious.
