

YOU'RE INVITED!

WHO: Parents of rising 6th graders

WHAT: Workshop on How to Help My Child
with Math 

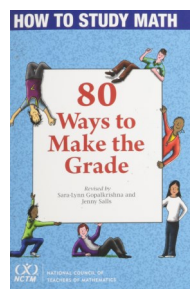

WHERE: GES Media Center

WHEN: Thursday, April 19th at 6:00P.M.

Is your child going to start middle school in the Fall? Are you worried about not being able to help your child with their middle school math homework?

Then this work-shop is for YOU!

This work-shop will cover how to create a working environment for studying, the teacher's approach to teaching math, techniques to studying and staying organized, and suggested websites for some self-help when studying math. This work-shop was conceived due to parents' response to the Title I surveys filled out at the beginning of the year at Ringgold Middle and Lakeview Middle. The work-shop was developed by Konnie McKown, Math teacher at LMS and John Lee, Youth Development Coordinator with Communities in Schools, and is based off the book, *How to Study Math: 80 Ways to Make the Grade* by Sara-Lynn Gopalkirshna and Jenny Salls. If you would like to attend this work-shop please fill out the R-SVP form attached to this sheet and return it to the school by **Tuesday, April 16th!**

RSVP
