Parent Engagement Month Calendar
November 2015

Presented by the Georgia Department of Education

Parent Engagement

Get the facts....

The Title I, Part A Parent Engagement Program at the Georgia Department of Education is leading a statewide initiative to actively engage schools, parents and communities in academic enrichment activities during the month of November, which has been declared as **Parent Engagement Month** by Governor Nathan Deal. A calendar is being offered as a free resource and reminder that parents play a critical role in the lives of children and their education.

Every student in Georgia should have a strong support system that values and encourages educational achievement and there is no one that can support this effort better than parents.

All of the information you need is right here to start celebrating Parent Engagement Month with your family.

Get connected...

This calendar has been designed as a tool for parents to GET INVOLVED and stay connected in their children's education. Parents are encouraged to utilize this calendar to identify teachable moments at home and when participating in day-to-day activities with their children.

Three specialized calendars have been developed for the parents of elementary, middle and high school students to engage in meaningful conversations and positive interactions with their child(ren) daily. Although each calendar has been created based on school levels, parents are strongly encouraged to assess their child's ability to engage in these activities and check for age-appropriateness. Remember, it's important to GET CONNECTED everyday.

Get involved!

November is Parent Engagement Month in Georgia. It's a time for all parents to consider how they can get more involved in their children's education. Want to know what makes a huge difference in your child's education? You do and so does every parent that gets involved and stays connected.

It doesn't matter where you are, on the scene at school or behind the scenes at home, your participation is a crucial part of your child's success. Show your child that you care by volunteering, making school important and having high expectations for your child.

And when November's over, keep doing those things all year round. Get the facts and be informed, get connected, and above all, GET INVOLVED!

You Can
PLAY A ROLE

Elementary School Activities

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<p>Begin planning and shooting your video for the Parent Engagement Program's "You Can Play a Role" contest. Details on page 6. 1</p>	<p>Develop a vocabulary list on index cards together with your child and add a new word everyday. 2</p>	<p>Help your child make a list of things they want to accomplish in the future, such as go to college or go to space. 3</p>	<p>Help your child create a graph to chart the daily temperature and calculate the average. 4</p>	<p>Talk with your child about school for at least twenty minutes with no interruptions. 5</p>	<p>Write a story, do a math problem, or draw a picture with sidewalk chalk. 6</p>	<p>Build a compost pile with your child and use the fallen leaves to get it started. 7</p>
<p>Make plans to participate in an upcoming community or school event with your child. 8</p>	<p>Help your child create a quiz game for the family based on school homework. 9</p>	<p>Visit and learn about places in your neighborhood (fire station, police station, post office, etc.). 10</p>	<p>Help your child interview an older relative about what life was like when they were young. 11</p>	<p>Teach your child about your job and take them to work if possible. 12</p>	<p>Teach your child how to use different units of measurement to make a meal. 13</p>	<p>Make a bird house out of popsicle sticks. Apply math and science skills by determining accurate dimensions. 14</p>
<p>Work with your child to develop a solid homework and study routine. 15</p>	<p>Submit your "You Can Play a Role" video to the Parent Engagement Program by 4:00 p.m. Details on page 6. 16</p>	<p>Discover different species of birds by going to a local park and bird watching. 17</p>	<p>Count to 500 by 5's, 10's, and 20's starting at an unexpected number such as 23. 18</p>	<p>Have a contest to build the largest boat to float out of items found in your house. 19</p>	<p>Go to the library with your child and check out a book. 20</p>	<p>Help your child write a poem describing all the best things about autumn. 21</p>
<p>Engage in a word scramble challenge: INCE NATH CHPEA LXO TUME NAPL LACL KEHC 22</p>	<p>Ask your child to solve math problems mentally and explain their strategy to you. 23</p>	<p>Visit a zoo or aquarium to learn about animals.
