Directions for completing Reading and Math Calendar

- Use activities, like the ones listed below, to practice reading and math skills.
- Record the number of minutes for time spent practicing reading skills.
- Record the number of minutes for time spent practicing math skills.
- Initial each day.
- Turn in calendar at the end of the month. (You may keep the calendar in the back sleeve of the homework folder.) Only the calendar needs to be returned. You may keep homework practice pages and decodable books at home for continued practice.

Reading Activities

Decodable Book, Library books, or other books

- Read to self
- Read to an adult
- Adult read one page, student reads the next page. Take turns.
- Adult model reading book. Student reads book back to adult.
- Read several times to build fluency---make reading sound like talking.

Sight Words

- Flash cards (read within 3 seconds)
- Play matching game
- Rainbow write
- Marker board
- Fancy words

Make it fun! 😊

Math Activities

Math Fact Flash Cards

- Model the problem with objects (Cheerios, toy cars, marshmallows, etc.)
- Say answer within 3 seconds.
- Make 2 stacks. If 3 seconds or less, put in one stack. If more than 3 seconds, put in the other stack.
- Keep practicing both stacks until mastered.

Fact Fluency pages (Use your sheet protector and marker for multiple practices.)

- Give student 5 seconds per problem on the page.
- Set timer.
- Check problems together.
- Count to see how many correct.
- Try to beat previous score.

Look for patterns! 😊
