

CAREER AND TECHNICAL STUDENT ORGANIZATIONS

All Georgia Career and Technical Student Organizations (CTSO) are Intra-Curricular, meaning the activities are linked to what is learned in the classroom. Students enhance their occupational, employability, and leadership skills through various activities such as conferences, award programs, service projects, and competitive events. Students can participate in a variety of CTSO activities and events that are organized on the local, state, and national levels. CTSOs promote leadership skills, community service learning, and career development opportunities for students enrolled in a Career Technical and Agriculture Education (CTAE) program.

The following Career and Technical Student Organizations are available for students to participate in at Fannin County High School:

Family, Career and Community Leaders of America (FCCLA)

Future Business Leaders of America (FBLA)

Future Georgia Educators (FGE)

Future Health Professionals Health Occupation Students of America (HOSA)

National FFA

SkillsUSA

Technology Student Association (TSA)
