

Healthy Smiles Happen at School

Great News! Help a Child Smile dental program is joining with your child's school to offer full-service dental care at the school.

The American Dental Association recommends yearly checkups for children. If your child has not seen a dentist in the last 12 months, this program is for you!

***Already enrolled? Please fill out the new form,
so we can update your records.***

No Cost to You

If your child is insured with Medicaid / PeachCare for Kids®, there is no cost to you. We also accept most private dental plans.

Easy & Convenient

When your child visits an in-school dentist, you save time. Local, licensed dentists and hygienists provide the best of care from our fully equipped mobile offices. Dental care at school includes a complete exam, x-rays, cleaning, fluoride, sealants and cavity treatment when needed.

Keep Your Child Healthy

If your child does not see a dentist regularly, he or she is at risk for:

-  Early Tooth Loss caused by dental decay
-  Gum and Heart Disease
-  Speech Problems

Childhood cavities are more common than asthma. Infection from tooth decay can lead to other health problems, as well as problems eating, speaking, and learning.

Simply fill out the enrollment form. Return it to your school TODAY.
