HOW DOES GRADING WORK?

- If colleges provide the high school with letter grades, the high school will transcribe the letter grade to the midpoint of the grading scale.
- A = 95 B = 85 C = 77
- D = 72 F = 55
- If an End of Course Test (EOCT) is required for a course taken at college (ie. Economics), the student must return to the high school and complete that test. The EOCT counts 20% of the student's final H.S. grade.
- If the student fails a class, it could jeopardize graduation!
- No points are added to the final grade (exception – 10 pts. are added to Georgia Tech – Calculus II).
- All Dual Enrollment classes are included on the high school transcript.
- .5 is added to HOPE GPA

GRADE CONVERSION

- 1 - 2 semester hour college classes = .5 HS credit.
- 3 - 5 semester hour college classes = 1.0 HS credit.
- Be aware – If students complete High School graduation requirements early, they will no longer be able to participate in Dual Enrollment or attend High School.
