

February

Attendance Challenge

We have an Olympic size announcement to make for the February attendance challenge that can turn the current House standings upside down.

Over the last 2 weeks of February, we will award 10,000 points to the gold medal award winning House with the best attendance. The silver medal award winning House will get 7,500 points and the bronze medal award winning will get 5,000.

Additionally, every student who has perfect attendance between Feb. 14 and Feb. 28 will receive 200 points for their House.

This is a great opportunity for the Houses that are trailing to catch up, or the House that is winning to extend their lead. Make sure you're at school each day so your House can bring home the gold. Go for the gold!
