**7. Presentation to School Council**

Ray presented to the school council on the topic of ZSpace. At the previous meeting, we were made aware that the school was awarded an Innovation Grant, which provided the funds to purchase five 3D computers, and one 3D printer. We are the only elementary school in Houston County to have this technology. In the upcoming months, the plan is to have teachers trained on how to use this new instructional tool and educate the students as well. This will make learning not only fun, but engage the students in the process as well.

**8. Report of Principal**

Ray presented to the school council on the recent CCRPI scores. KCES showed about a 2% growth from the previous year scores. In the area of achievement, our school is performing well. It's the area of growth that needs improvement. Teachers are active in monthly data meetings where they are analyzing student work to make sure students who are struggling receive the remediation needed to help them grow. This year the lowest 25% of students in the areas of reading and math are being pulled each day to give them extra support.
