Sample Question and Notes

What should I write down when I take notes?

Note: Leave space in the *Connections Column* so you can add notes and test review questions later on when studying.

How can I take notes faster?

Write down only important information. Look for:

- bold, underlined, or italicized words
- information in boxes or with an icon/symbol
- headings/subheadings on the page
- information the book or teacher repeats
- words, ideas, or events that might be on a test
- quotes, examples, or details you might be able to use later in a paper or presentation

- abbreviate familiar words/use symbols (+, →, #)
- take notes in bullets and indents, not formal outlines
- cut unnecessary words
- use telegraphic sentences: "America enters war 12/44."

Down here, write one of the following: summary of what you read/lecture; the five most important points of the article/chapter/lecture; questions you still need to answer.
