Introduction of Council:

Mrs. Hall introduced all the members and the committee talked about adding a new business partner.

Review of minutes of last meeting:

Elections:

Mrs. Hall talked with the committee about the Opportunity School District which is an attempt to help struggling schools. Georgia Governor Nathan Deal wants to create an "Opportunity School District," which would allow the state to temporarily assist "chronically failing" public schools. With the OSD proposal, "failing schools" are defined as those scoring below 60 percent for 3 years in a row on the Georgia Department of Education's College and Career Performance Index. The OSD takes control of the schools from the local government/ school board and can turn the school into a charter school controlled by the state.

School Goals for the year/School Improvement Plan:

Mrs. Hall explained the school's CCRPI Scores. Our CCRPI for last year was 79.4. We decreased 0.6 points because of the Milestones. She explained that the CCRPI scores are lagging data. She also explained the goals of our school. Mrs. Hall explained that her LKES goals focus on implementing the TKES process effectively and helping the fifth graders who did not pass the reading portion of the fourth grade Reading Milestones to become more responsible for their learning and their reading goals.

Title One Budget:

Mrs. Hall explained that we have money for tutoring. She asked the grade level to talk to their team members about the tutoring.

Council of Concerns:

Mrs. Hall asked about the concerns of the council. Mrs. King asked if we were keeping AR. Mrs. Hall brought up the fact that the school has bought Achieve3000. Mrs. Hall asked about the reading logs and the teachers talked about how they were trying to get the kids more involved.
