

Advanced Courses Acknowledgment Form

A variety of advanced courses are offered to Mary Persons High School students. Honors, Accelerated, and AP[®] courses are offered to students throughout all four years in high school. The AP[®] program provides students with the opportunity to pursue college-level courses while in a high school setting. Each AP[®] course is developed and governed by College Board. Upon completion of the AP[®] course, students are prepared and expected to take the Advanced Placement examination in the spring in their subject area.

Additionally, Mary Persons High School has partnered with University System of Georgia colleges and Central Georgia Technical College to offer Move On When Ready (MOWR) courses to our students. These courses are offered to students during their sophomore, junior, and senior year of high school. *(If you have questions about the MOWR process or options available, contact your student's guidance counselor.)*

All students who are interested in taking Honors, Accelerated, MOWR, and/or Advanced Placement (AP[®]) courses during the 2016-2017 school year in 9th-12th grade must fill out and turn in this signed acknowledgement form with their 2016-17 registration sheet. A new form must be completed when registering each school year.

By signing this form, both you and your parent are acknowledging that you are up for a rewarding and challenging year. You also must understand that the course work will be rigorous and it will take a substantial amount of time and self-motivation to be successful. Also by signing this form, you and your parents are making a commitment to stay enrolled in the type of course mentioned above for both semesters during the 2016-2017 school year. Students who fail the first semester of any of the courses will be reviewed for eligibility to continue in 2nd semester.

Mary Persons High School expects that all students will follow the principles of academic honesty when completing their coursework.

Students wishing to participate in any advanced course(s) are required to fill out and submit this acknowledgement form along with your registration sheet for the 2016-17 school year.
