Dear Parents and Guardians,

At the end of this school year your child will be taking the Georgia Milestone End of Grade (EOG) state assessment. You can access the parent brochure to familiarize yourself with the Milestone by going to the link on the BMS website or going to the GaDoe.org and choosing Georgia Milestone State Assessment.

During the Milestone students will be able to use a calculator as long as it is scientific or basic calculator (with square root and percentage functions allowed).

**The following devices/features are not allowed:**

- A calculator that stores text and/or that have a keyboard.
- Graphing calculators.
- Calculators that have programs stored in the memory other than those that are factory installed.
- No cell phones, personal laptops, minicomputers, pocket organizers, iPods, and personal tablets.
- Calculators with beaming capabilities
- Calculators with wireless communication technologies and/or Internet access.
- Calculators with built in Computer Algebra System – CAS
- Calculators that make noise have paper tape, or that have voice

**Additional restrictions:**

- Students are not allowed to share calculators within a testing session.

Note: Calculators are not permitted on certain designated subsections of each mathematics test in grades 6 – high school.

Please contact [Dustin.Strickland@murray.k12.ga.us](mailto:Dustin.Strickland@murray.k12.ga.us) or call Mr. Strickland at BMS at (706) 695-1115 with any questions.

Thank you!
