SUMTER COUNTY SCHOOLS
DISTRICT NEWS

A special thanks to our administrators, staff, parents and patrons who continue to support our students during this Covid-19 pandemic. Teamwork at its finest!

Everyday Fun Ways to Learn Math This Summer

Summer is a great time to learn how math relates to the real world. Keep your child learning this summer by finding fun ways to incorporate math. Suggestions include:

Shopping for Value: Learn about budget, cost per pound, and savings at your local grocery store.
Road Trips: Turn road trips into a learning experience by measuring distance, how many gallons of gas will the trip take, etc.
Daily Chores: Turn those chores into fun-filled math sessions by measuring, counting, and sorting.

TEACHING AND LEARNING CONTINUES: Schools are now moving into phase III as they continue to reach and teach students virtually through the Google classroom site. Here’s what to expect in our final phase of the year.
